

JUVÉDERM® FACT SHEET

Benefits -

JUVÉDERM® is an anti-aging dermal filler that offers a non-surgical approach to smoothing out facial wrinkles, folds and deep creases. This gel-based injection provides a high concentration of cross-linked hyaluronic acid for lasting results. In the human body, natural hyaluronic acid provides volume and fullness to the skin. JUVÉDERM® incorporates a form of this natural agent that flows into the skin during the injection process for a smooth and natural look.

JUVÉDERM® is available in two formulations: JUVÉDERM® Ultra for versatility in contouring and volumizing facial wrinkles and folds, and JUVÉDERM® Ultra Plus, a more robust formulation for volumizing and correcting deeper folds and wrinkles. This allows the healthcare professional to tailor treatments to meet the specific needs of the client. JUVÉDERM® injectable gel is also the first FDA-approved hyaluronic acid dermal filler that is proven to be safe and effective for skin of color.

Description of Treatment -

During a JUVÉDERM® treatment, the area to be injected will be cleansed, usually with alcohol swabs, and no anesthetic is necessary. Clients can request a topical anesthetic cream for comfort. The physician may request that specific expressions be made to identify facial muscle contractions and mark near the injection sites with temporary ink. A series of injections are then administered under the skin using a fine needle to augment, or fill, the soft tissue of the dermis to add volume and diminish wrinkles and folds on the surface of the skin.

A typical JUVÉDERM® treatment takes approximately 10-15 minutes, and clients usually return to normal activities directly after the injections. No allergy skin tests are required.

Average Cost -

The average cost of JUVÉDERM® can range \$600-\$1000 per individual treatment. These prices are greatly affected by the location of the provider and the area, or areas being treated. National Laser Institute offers this procedure at more the half the retail price, with treatments starting at \$250 per syringe. For more information about the spa and its services visit www.nlimespa.com or call a location at (480) 290-7333 or (214) 252-7800.

About National Laser Institute –

Founded by Louis Silberman in 2003, National Laser Institute Medical Spa boasts discount luxury locations in both Texas and Arizona. The spa specializes in the most advanced rejuvenation and anti-aging procedures in the marketplace. Its team of treatment providers represents some of the nation's top experts in medical aesthetics, including leading educators in the cosmetic laser field.
